Brine

Other

Description of Other Released Contaminant:

Inspected:

Written Report Received: 9/21/2015

Clean Up Concluded: 9/15/2015

Risk Evaluation:

The fire remained on location and extinguished itself.

Areal Extent:

Approximately 2,000 square feet - impacted topsoil and stained vegetation, southeast of location

Potential Environmental Impacts:

A mist of crude oil was carried off location to the southeast resulting in impacted topsoil and stained vegetation. There was no surface water observed in the vicinity of the release location.

Action Taken or Planned:

The impacted soil and vegetation on the southeast side of the location will be excavated and transported off-site for proper disposal.

Wastes Disposal Location: At a properly permitted disposal facility.
